We would like to take this opportunity to introduce ourselves to you as **WESCO Environmental, Inc.** We are a Pollution Control Equipment Service and Repair Company. We are a **WOSB**, our services include but are not limited to Power Plants, Process Plants, Refineries, Copper and Gold Mines. We will travel to any location that is necessary. We also provide 24 hour emergency service. A brief explanation of our services is as follows:

- **Air Pollution Equipment:** Repair, upgrades and rebuilds, alignments and routine maintenance to **precipitators and bag houses**. We also do wire and ridged electrode change outs along with bags in the bag house,
- **Catalyst Change Outs and Repairs in SCR Units.**
- **Inspection:** we do inspections on pollution control equipment and provide our customer with reports and recommendations to improve there productivity
- **Mechanical:** Work on associated equipment at **mines, power plants, paper mills, refineries and cement plants**. Equipment such as air preheaters, bowl mills, burner piping, general piping, and valves.
- **Piping / Steel Fabrication / Erection:** Field fabrication of pipe and structural steel assemblies and erecting them in the area in which they were fabricated for.

We have an **OSHA** and **MSHA** Safety Instructor. We are committed to safety for our employees and that of plant property and plant personnel.

Our Superintendents have over 80 years of combined service in the Industrial Construction field. Our commitment is to Safety and Quality Workmanship and to complete the work within budget and the allotted time.

We would appreciate the opportunity to be on your qualified bidders list for any upcoming work that you may have.
